

Know My World™

The Ownership Project teaches participants the power of perspective through observation, communication, dialogue, interactive activities and contemplative reflection questions. Through games and puzzles, small groups will engage in a personal pathway of discovery to uncover each individual's opinion, group consensus and the impact our point of view has on the world. Participants will apply new concepts and awareness of self to activities to observe a variation of outcomes.

- 6 week project
- On-site facilitation by a KMW Program Facilitator
- Extension Resources
- Project reflection

Focus:

- **Self-Awareness:** New insight about self and the impact of actions.
- **Character Development: Global Citizenship:** Bridging cultural gaps and accepting cultural differences by understanding the impact or actions have on others.
- **Leadership:** Accountability and responsibility for self and others.
-

Project Model: Ownership and Accountability
